

Dear COHS Students and Families,

The 2020-2021 course registration time will be happening soon. We know there are many questions surrounding how to select courses and have set up specific opportunities for all students to get their questions answered. See the chart below for the multiple opportunities to assist you and your student make well-informed course selection decisions.

Starting now, all students should start **researching and planning** appropriate course selection choices.

- **Attend** CTE night (9th grade) or AP night (all grade levels) to learn about those programs. (see dates above)
- Students will be receiving an "**Academic Planning**" lesson in their advocacy class on January 28th (9th), February 4th (10th, 11th). The lesson and all course selection forms will be available on the COHS website. We encourage students and parents to review this lesson in order to make collaborative decisions on appropriate courses.
- Talk to current teachers about **recommended course progression** for next year.
- Refer to the online [2020-2021 EGUSD Course Catalog](#) for course descriptions.
- Review **StudentVUE Course History** for your student's grade history.

Please feel free to contact your student's counselor at any time.

Thank you,

COHS Counselors
